

To Whom It May Concern

I am very content to write the recommendation letter to S M Rafiuddin, as I have observed him the entire 4 years of his undergrad education at Rajshahi University of Engineering and Technology.

He is working as a Lecturer, Department of Computer Science and Engineering at the University of Asia Pacific. Both academically and personally he is bright, energetic, and enthusiastic about new knowledge and ideas.

As a course teacher and Professor of the department, I found him passionate about research activities. His final year undergraduate thesis on Text Classification was accepted in the 19th International Conference on Computer and Information Technology in the year 2016. That paper based on his undergraduate thesis was cited 14 times according to google scholar. He is hardworking and keen to be a good researcher in the future. I believe, he has the potential of being an impactful researcher in the field of Computer Science.

I took courses like Structured Programming in the first semester and Computer Graphics in the last semester of his undergrad program. In both the courses, he got praiseworthy grades in both the courses. Also, his preparation for assignment organization was notable. I think he is well organized with his studies and projects.

He has the ability to learn new things and make the topics intuitively lucid. He has actively engaged in Research Projects, mainly on Machine Learning and Computer Vision.

He is engaged in several research projects such as Bangla Handwritten Character Recognition, Abstract Art generation using Generative Adversarial Network. Currently, he is pursuing his M.Sc. in Computer Science and Engineering at Bangladesh University of Engineering and Technology.

S M Rafiuddin has the potential credence to excel in the Ph.D. program as a Graduate Research Assistant in the field of Computer Science and related fields.

I strongly recommend him as a prospective Ph.D. student at the New Jersey Institute of Technology (NJIT) and wish him all the best.

Regards,

Prof. Dr. Md. Al Mamun

Professor and Director of ICT Cell

Department of Computer Science and Engineering

Rajshahi University of Engineering and Technology
